Small Lab. Big Results.

COMPOSITES & ALBUM DESIGN

COMPOSITES

Composite prints are designed to your specifications and are available from 2-up to 5-up. More than 5-up is considered an Album Design Product and is priced as is indicated below. Composites can be with a hard line or blended lines, can have borders or "edge effects". We have a vast library of edge effects and composite layouts, which are available for download in our "Downloads" section. There is no limit to the layout of any of these composites, they are just examples and ideas. Feel free to come up with your own design and let us make it happen!

COMPOSITES	
8x10 2up	\$9.80
8x10 3up	\$12.50
8x10 4up	\$15.20
8x10 5up	\$18.44
10x10 2up	\$10.80
10x10 3up	\$13.50
10x10 4up	\$16.20
10x10 5up	\$19.44

ALBUM DESIGN

More and more wedding couples are looking for that "digital" look in wedding albums. We offer high quality album layouts using several software tools, and can design an album to fit your client's needs. Generally most of our design customers give us all of the images and let us run with it, and design a great album. While this can be done, we can also accommodate design requests, or follow your instructions. Album design is a subjective thing, that is what looks good to our designer might not look good to your client. Please make your client aware of this. On album design order of 15 or more pages we allow 2 remakes per album. That is, you or your client can reject 2-3 pages out of that album, for whatever reason and the remakes will be no charge (unless more images are added). Larger albums (greater than 40 pages) can have 4 remakes. Below are some examples of our design work.

ALBUM DESIGN (Average design time is 2 hours)

Design And Layout Work

\$60/hour, billed in 1/4 hour increments
